1221 People are asking what's next. Well, Congress goes to some secret location, emerges and declares Biden the winner, most likely. What's next is thinking of what we can do as citizens. This was a coup.

The right needs to get cohesive and coherent.

43 A coalition of states that don't recognize a Biden presidency. Think of it as secession "lite"

35 What's next is we need to organize.

The militia successfully took over the capital building today, if we were all willing to make the ultimate sacrifice necessary we can take over this entire country

32 100 armed veterans could have easily taken out every politician today if they wanted to.

Correct. Organize, Dox everyone involved in this sham and make them fear for the rest of their miserable lives. Fraud proves they don't represent them.

We also challenge in our state, No Taxation Without Representation. We can start by making a petition for awareness. No taxes = No government

14 Find like minded people in your area. Figure out ways to communicate with them that can't be turned off. Ham radio might be a good solution there but I'm not an expert. Discuss things on the internet as little as possible.

We should have done this years ago but it's never too late as long as there are patriots drawing br

23 ▼ The biggest thing is once they got inside they didn't know what to do. Everyone just sort of stood around, milled about for a bit, and then allowed themselves to be pushed back out by oath breakers.

There was no plan or cohesiveness, and no goal.

11 ▼ The goal should have been to get in their ASAP and get them to admit the election is hotly contested and that Biden was not the rightful winner. Next if they didn't do that -- hang them.

19 ▼ If we are now a banana republic we can have a counter coup. We don't have much practice but surely we can learn.

10 ▼ I actually think whatever happened today, Trump doesn't have long left.

MSM has been blatant in laying the groundwork for stories before they happen (like all the talk of the red mirage).

There were a lot of weird stories about Iran wanting to kill Trump after inauguration recently. I reckon they'll take him out and Bidens military industrial complex masters will use that context to take US into war with Iran.

9 ▼ Right wing individuals need to encourage their military and law enforcement friends to not act on any right wing persons and support them if there are moves made against them. Next the right needs to destroy low based infrastructure that keeps us shackled (courts, police, etc). If police make moves on us for any i registration or round up scenario do not cooperate and hit them guerilla style make them pay severely every

What you can do is bomb federal buildings and burn them to the ground.

If you are a registered republican call or go online tomorrow and change to unaffiliated or independent. Make the Republican party like Fox news.
